AIRSON ÒIGRIDH

Spòrs Gàidhlig is an outdoor activities and educational programme provider dedicated to providing opportunities for young people to engage with and use Gaelic. We are fully bilingual and experienced in working with schools and youth groups. We can tailor your experience to your needs.

Schools with no Gaelic - the majority of schools do not offer Gaelic as a subject or a medium through which to learn. We can offer activities and programmes which introduce the language to the total beginner. Before you come, we can help you introduce the language through our dedicated educational resources. Introducing Gaelic works well with topics such as Scottish history, geography, languages, landscape and land use, place-names and geology.

Gaelic learners - We can help support your learners by offering our activities at a level appropriate to learners of Gaelic. Our activities and programmes can be tailored to meet the needs of primary and secondary learning.

Gaelic speakers - We can offer all of our activities through the medium of Gaelic. We are experienced in working with schools where Gaelic is used as the main language including primary and secondary education.

Activities with a positive legacy

Our activities include skiing, orienteering, bush craft, gorge walking, climbing, mountain walking with expeditions, navigation skills, mountain biking, rural skills and team building events. They are lots of fun!

Spòrs Gàidhlig is actively building a dynamic new community of young Gaelic speakers from throughout Scotland for the 21st century.
